

HOW TO APPLY PRODUCTS

to Clip Strip's

SS-Roll Adhesive Display Strip

- 3,000 adhesive positions per roll = 250 strips of 12 positions
 - 4 rolls per box = 1,000 12-position strips / 12,000 adhesive hang positions
 - Hang the strip using one of the free 1,000 ET-64 Round Hole Hang Tabs provided in each box.
-
- Width: 1.08 inches / 27mm
 - Adhesive Position: .625 inches / 16mm x 16mm
 - Spacing Between Hang Positions: 1.5 inches / 38 mm

Step 1

Unwind the adhesive strip roll and cut the length of strip you would like to use.

Step 2

Apply the top portion of your product over bottom adhesive area of the strip.

Step 3

Continue loading product up the strip until fully loaded. The adhesive is designed to re-hang products if they fall off or are removed.

Step 4

Attach the ET-64 Hang Tab (included) to the paperboard side of the strip. Attach an S-Hook, if needed and hang the strip or place the loaded strip in the box for shipping.
